Electronics Hive

LabsLand Hive Terms and Conditions for Laboratory Providers

Version 1.0

Table of contents

1. Document goal	3
2. Equipment included	3

1. Document goal

This document applies to everyone purchasing the LabsLand Electronics Remote Laboratory (LabsLand Hive) equipment. The goal is to link the terms and conditions that apply to this product.

1. All the General Terms and Conditions of LabsLand apply:
<https://labsland.com/en/legal/terms-and-conditions>
2. All the Terms and Conditions of real-time laboratories for Laboratory Providers apply:
<https://labsland.com/pub/resources/real-time-terms-and-conditions-en.pdf>
3. The Hive supports 200 users using the laboratory.

2. Equipment included

Equipment included: for a full-hive, two nodes will be added, each of the nodes including:

1. Circuit builder and boards including the standard set of components
2. Oscilloscope
 - a. 2 or more channels
 - b. Input range: -25 V to +25 V
3. Function Generator
 - a. 2 or more channels
 - b. Sample rate: At least 100 MS/s
 - c. AC amplitude: +- 5 V
 - d. DC offset: +- 5 V
4. Power Supplies
 - a. Dual channel programmable power supply: 0.5 V to 5 V and -0.5 V to -5 V
 - b. Dual channel (not programmable) power supply 0 V to 15 V and 0 V to -15 V
5. Multimeter
6. Voltage measurement
 - a. Current measurement
 - b. Resistance measurement
 - c. Capacitance measurement
